STATEMENT OF THE INTERNATIONAL ACADEMY OF TRIAL LAWYERS UKRAINE CIVILIANS

The International Academy of Trial Lawyers (IATL) unequivocally condemns the targeting of civilians in Ukraine in what can only be deliberate action on the part of the Government of the Russian Federation. This sickening campaign of bombing civilian areas so to terrorise and intimidate, injure and kill the civilian population of a country that did not attack or threaten to attack the Russian Federation, is a blatant breach of the International Rule of Law. The IATL calls on the international community no matter how long it takes, to bring to justice all who are involved in these crimes against humanity.

The International Academy of Trial Lawyers is an invitation only group of the best trial lawyers in the world dedicated to civility in the practice of law and upholding and promoting the Rule of Law.
